Like everything with SingleCare, it's simple and easy!

1. Go to this website address:
3. Provide a few details
3. Start saving

What's Telehealth? Here It Is In Action!

It's 7:30 pm. Bob can feel another sinus infection coming on – he's had them before, knows the signs.

He remembers his SingleCare Telehealth benefit and decides to try it out! In minutes, he's connected with a board-certified doctor via video on his laptop, talking through his symptoms and history. By the end of the short call, the doctor has submitted a prescription, which Bob picks up at his neighborhood pharmacy in 30 minutes (also saving with his SingleCare pharmacy discount).

He starts his medication that evening and shows up right on time to work the next morning!

• Avoids missed work   • Seen right away, 24/7   • Great price!

The SingleCare Advantage
Great pricing at thousands of healthcare providers

1

SingleCare is hassle-free

SingleCare is not insurance, so there are no restrictions. Visit your doctor or dentist as often you like. Even if you already have insurance, SingleCare may still help you save on healthcare.
With SingleCare, there are:

No exclusions
No eligibility requirements
No claim forms

2

SingleCare is easy to use

1) Login and view providers and pricing at singlecare.com and book an appointment

2) On the day of your visit, check in with your card or email address and date of birth

3) After receiving care, Singlecare pays the doctor on your behalf, and charges your account on file only for services you receive.

3

SingleCare is free to join

With no monthly premiums and no fees, get the care you need and only pay for services you receive. All at a great SingleCare pay-as-you-use price. Less hassle, more savings.
